Photoshop Cs5: Production, Aca Edition + Certblaster (ILT)

Synopsis

Photoshop CS5: Production, ACA Edition, is part of a three-course ILT series, which is designed to help students prepare for the Adobe Certified Associate exam for Photoshop CS5. This course focuses on the specific information needed to create professional-looking images for high-end business printers and commercial print shops. In this course, students will learn project management basics and how to create layer comps. They will also learn how to optimize color management for print. They will explore various techniques for adjusting the quality of an image and making color adjustments. Students will learn how to use CMYK separations for prepress, customize ink options, and adjust CMYK curves. Students will also explore various options for using grayscale, spot-color, and duotones. Finally, they will learn how to optimize images for the Web, balancing quality and file size, and how to prepare images for use in video productions Course manual comes with CertBlaster exam prep software (download).
