This is a book I have read many times. It is about Edgar Cayce and it tells you the story how he developed his ability to tell about previous events (and even future) in a self-hypnotic state. He didn't understand how this could come about but he thought that in one way or the other everything that had happened or even was only thought or said was remembered in the ether and could be stored in some Akashic records and be accessed by everybody who had developed that ability. This book tells about how he started to talk about the dead sea scrolls 15 years before they were found, and he could possibly have known about them, because he had never been there. He told where they could be found, what was written in them, who wrote it and also a lot about the big role that was played by some women, unknown to previous history. This is a wonderful book. Read and contemplate. Take a deep breath and enjoy, it will be a delight for you. It is so sad that the book no longer is available, it is one of my favorite books. It just have to be reprinted.

I have yet to read this book. For the last five years, I have bought several Edgar Cayce books and I have been very pleased with my orders. Thanks!
