Customer Reviews

This book is exactly what the title says. A good historical-theological introduction to the prophets and prophetic activity in the ancient Near-Eastern world. It deals with all of the prophets in the Old Testament. Starting with the prophets in the Pentateuch (Abraham, Moses, etc), up to the 'classic' prophets (Isaiah, Jeremiah, etc.) The writer is a catholic priest, but his presentation is fair enough to be used by any other denomination (I am not Roman Catholic, but enjoyed the book).

INTRODUCTION TO THE PROPHETS: THEIR STORIES, SAYINGS AND SCROLLS introduces college students and adults to biblical stories about the prophets and teachings of the prophetic books of the Bible. The author's own background teaching undergrad and adult Bible study courses lends to an outstanding introduction, highly recommended for any college-level spiritual library seeking a fine introduction to the topic.

If you've always found the Prophets a bit daunting, but want to understand them, this is the book for you. It's one of those books where you can tell the author loves the subject and really wants to help

you learn. You'll get the background you need to read and understand the texts. Great things about this book:-Material: background on the times and life of the prophet; the important themes and messages of the book; how the prophet used traditions (like the Exodus) and how later traditions incorporated their work-Starts with the prophets of the Torah-Well organized, great headings: I always knew where I was & how it fit into the big picture-Gives the background of prophecy in the Ancient Near East and relates it to what you're reading; you don't have to have read the Mari letters or know Akkadian (or Hebrew)-Lists, charts, timelines are all great references and make the book visually fun -Example: for Isaiah author lists the characters as: â œThe Enemy,â • â œThe Conspirators, â • and â œThe Odd Man Outâ •-An extra virtual 5 stars for the callout boxes: two columns have the text and what each part of the text does (e.g. messenger formula). The relevant parts of the quote is bolded, which is super helpful. I donâ ™t know if itâ ™s because the material is so dense, but reading â œset over them a district governorâ • doesnâ ™t immediately make me realize, oh no, he reduced the kingdom to a province! Bummer!-Helps you choose readings from the prophets instead of recommending the whole book AND includes the quotes from the readings in the text (great for further reference)-Talks about the book in the tradition of the Christian & Jewish liturgyâ "fascinating and helpful to remember whoâ ™s who. Which prophet's work did Dies Irae come from?-Ideal for self-studyYou'll soon be ready to read and appreciate some of the most beautiful and challenging biblical works.

Great book, and well worth the money. However I am disappointed with the Kindle edition in some ways, namely: No pagination and many of the hebrew characters do not appear properly. Please fix this if possible!

This book was purchased to help complete our church library for references on the Prophets. It was most helpful to our church members that need it for adult classroom teaching.

Used this book in a classroom setting and found it a very good survey of a very broad subject. Good quick reference and an fairly easy read.

I am currently finishing my second year in a four year Catholic Bible class. This is a required book for our third year. Received it quickly.
