My 7 year old loves the A-Z Mysteries series and I am generally happy with the content. Unfortunately, this books references to Jack the Ripper forced me to take this one back. My daughter had trouble figuring out the word "murderer"...thankfully. These books are for young children and I didn't expect the serial killer reference.

From my daughter: I am 8-years old and have read all of Ron Roy's A-Z (and some capital and calendar) mystery books. I have enjoyed them all but this is my favorite one. How the robbers committed the crime was a genius. If I was Dink, Josh or Ruth Rose, I would have never found the culprit. It is an amazing mystery and I am sure you will enjoy reading it. I liked it so much that I've read the book twice and still like it. The book was worth the price.

A book filled with lessons for our children. Parents could point to the danger of taking shelter under a tree when it rained and the danger of opening door to a hidden visitor. In addition, parents could lean in to share how small details could be the key to solving difficulties and lead to success in life.

I liked this book because it has a lot of intriguing mystery involved in it and 3 kids solve it. In this book, the 3 kids realize the Queen of England has been robbed and she has lost all of her jewels. The kids have to find the thief and retrieve the lost jewels the queen has lost. They find the jewels hidden in plain sight and catch the culprit. I recommend this book to kids who like books with not too many pages and a good mystery.

I really like this book it is very interesting and full of mystery. I really liked it when you thought about including the queen's grandsons and her birthday and that there was a way to find her jewels by looking for her initials on the back of her crown and jewels and that the initials were the first three letters of her first, middle, and last name which were E.A.M.

In this book the kids are with Mr. Duncan in London England. This book has a very surprising ending and is easily the best a to z mystery book. In the beginning of the book the kids get a hunch on the robbers identity. This book is a great book because it's a mystery that no one can seem to solve. This is an awesome book!

Bought these for grandkids who already like reading them. I have not read them, but the mothers have and they are happy with them.

I'm still a fifth grader but I love reading all of the A to Z mysteries. I hope Ron Roy writes a new one because I'm about to read castle crime.
