With help from this book you can make your room uniquely yours without going broke and most of the changes can be done in one weekend.SARAHâ ™S REVIEW---AGE 10I sooooo loved this book because I really, really want to redo my room. This book gave me tips on how I can get my parents to let me change my room by

showing them I am a responsible. It says I can do that by cleaning my room and sorting my stuff into piles to give away, keep and throw away. I am hoping it will show them I am seriousâ |lâ TMm really, really hoping. It also give me tips on how to make changes without asking them to spend a lot of money, such as using scarfs for curtains and glamming up lampshades with jewels. My space is small so I was surprised to find out how I could make my space seem bigger by making it into areas for sleeping and book reading. It even taught me the right way to fold and store my clothes so they wonâ TMt get all wrinkled. I always thought changing my room was going to be easy until I read this book and now I know itâ TMs a lot more than just changing the color. Itâ TMs a lot of work, but I think I am ready for it. Hopefully mom and dad will think I am ready for it too. Thank you so much for this book.MY REVIEWI loved this book not only for its creative ideas, but because of the step-by-step instructions. I was impressed because it starts out by suggesting before making any changes you ask your parentsâ TM permission first, and then show them you are responsible enough to handle the task by going through your old things and sorting what you need to keep, toss or donate.
