My 9 year old granddaughter loves this series. She told me that one of the things she really likes about it is the way the stories build on each other. I am sure that when her three younger sisters are old enough, they will also enjoy reading this series.

These were my all time favorite books growing up! I loved the mystery of each one. I love that I can buy these now for my own kids and share these fun stories with them. The Christian emphasis is important to me now as well as I learned many valuable spiritual lessons through these books. I had the entire series as a child and spent countless hours reading and rereading them. This book is

pretty large as it is book 6-10. It may prove to be difficult for the 8 year old I bought this for to hold and read easily on her own.

When I was about 10 yrs old, I received the first, original box set of books 1-5 in the series and was hooked! (that was about 20 yrs ago :) I was fortunate to have a friend who collected the entire series, so I was able to borrow the new sets from her or from our local library. Now I have a niece who is nearing the age that she would enjoy these mysteries so I wanted to have the entire collection to read together with her and/or let her borrow. I LOVE the fact that the series is now volumes bound in 1 book (5 books in 1) so that it is fewer individual books to keep track of. Also, there is something to be said for the challenging of accomplishing reading a book that is over 300 pgs. when you are so young.

I loved every word of it. The book had me standing on my toes wondering what the explanation to each mystery there was. I mean like I read the whole volume in two days. I absolutely cannot wait to get the next volume!

My 12 year old daughter loves these books. I love that they have good messages and morals, and they keep kids interested. She can't put them down! I wish I could find more books like this that I can be comfortable with her reading.

I ordered the "Mandie" books for my ten-year-old grand daughter for Christmas. My daughter had them when she was young and read the whole series. They are very good reads for young kids that enjoy reading. I ordered them from "" because their service is great.

I did every chore I could think of and scrimped and saved as a young girl so I could buy each Mandie book when it came out. I adored this series! Recently, I wanted to read it again, wondering if it was as good as I remembered it to be. I was thrilled to find it available for Kindle! They definitely are not as good as I thought, but I am enjoying them nonetheless. Perfect for a young girl who loves mysteries and traveling to far away places with Mandie. I will definitely be buying the rest of the series as I read them; I have two boys of my own, and don't have much time for girliness. Fun series!

The Mandie Collection is a wonderful mystery and adventure series for girls. I started by giving it to

my two daughters to read over 20 years ago and have now bought them to give to my granddaughters. This series is as cherished by my granddaughters as it was by my daughters. We still have the original set that we bought a book at a time. However, with six granddaughters so far there was not enough books to go around. I highly recommend these books. It is nice to have books that I don't have to wonder what my children or grandchildren are reading. They are having fun and enjoying going on the many adventures and solving mysteries with Mandie as well as being fed both spiritually and intellectually. As a Mom and Grandmother I can not say enough about these books.
