ISBN-13: 978-1119016045

Product Dimensions: 7.4 x 0.6 x 9.3 inches

Shipping Weight: 14.4 ounces (View shipping rates and policies)

Average Customer Review: 3.6 out of 5 stars See all reviews (58 customer reviews)

Best Sellers Rank: #124,056 in Books (See Top 100 in Books) #22 in Books > Computers & Technology > Software > Accounting #25 in Books > Computers & Technology > Software >

Quickbooks #104 in Books > Computers & Technology > Business Technology > Software > Spreadsheets

## Customer Reviews

There are usually several "Foolish Assumptions" listed in most of the Dummies books I have. They are almost always right on the money. A family member is struggling to learn QuickBooks and is getting nowhere fast. The assumption that would fit him is that he has "some interest in managing the accounts for [his] business online." It's a rather simplistic assumption, but if it's tedious to manage one's accounts it would seem a lot easier to simply purchase a ledger and go from there. I'm the "Dummie" type when it comes to learning certain things, and working with this book is giving me a better understanding of how QuickBooks Online works. Now is probably the time to get onboard with the program because the 2015 tax season is about to end. One thing I definitely like are the visuals. I can easily see what the screen looks like as there are screen-like visuals of the actual pages I'm looking at. FYI, if you are uncertain about QuickBooks Online (QBO) or QuickBooks Online Accountant (QBOA), you can actually start with a free trial if you'd like. Each section is broken down into doable ones. There are icons that offer up tips, things to remember, cautionary notes, and "web extras" that point the way to extra online contents. It's as if I have someone standing over my shoulder pointing out pertinent information I need to take a look at. For example, when I'm working with transactions in QBO, I'll need to remember to confirm each one or change it before it's included. It's the simple stuff that helps a lot. No, this isn't the missing manual or anything like that, but it QuickBooks Online isn't intimidating. It can and should be read in consecutive order, but then it can be referenced. There's a clear, concise index in the back that will help me do just that.
